

computer systems - July / August 2011

Introducing the all new slimline range of axom series computer systems.

Features include:

Powered by Intel Core i3 Dual Core or Core i5 Quad Core 2nd generation processors

Hard Drive Storage up to 2TB gives you plenty of space for movies, photos, music and more

Be assured with a 24 month warranty standard with all Axom Series systems

The Axom Series of computer systems are built using a slimline low power and quiet case. With such a small footprint these systems are ideal for a variety of applications like POS systems, Media Centre PCs, or even if you are just short on space!
